

Instant **Insight.** Intelligent **Oversight.**

Real-Time Site Intelligence

Argos

Argos is a rugged, mobile site intelligence platform built in the USA and connected via Starlink satellite. It delivers real-time insight across safety, security, virtual site management, analytics, and more.

UNSAFE BEHAVIOR DETECTION

Flags risk behaviors like crowding and improper tool use.

FALL PROTECTION MONITORING

Instantly identifies missing PPE or harnesses at height.

HAZARD ZONE ALERTS

Catch intrusions into dangerous zones before accidents happen.

PROACTIVE NOTIFICATIONS

Real-Time Alerts – Real-Time Prevention

Deploy Specialized AI Assistants

Safety Manager

Security Officer

Project Manager

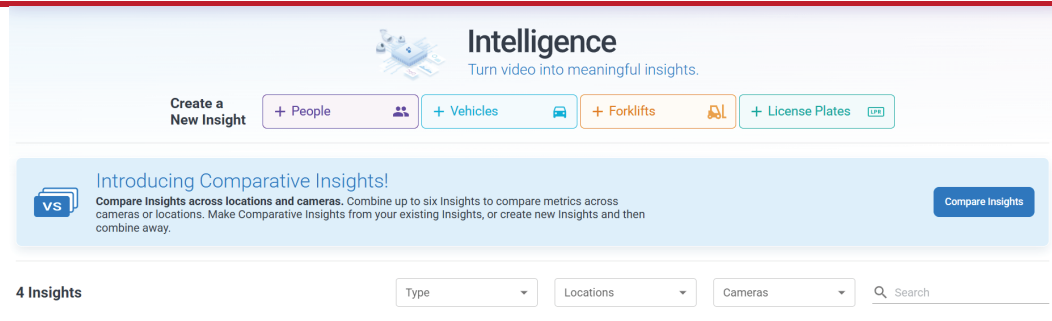

Damage Mitigator

Intelligent Agents.

Our AI agents act like always-on digital assistants — These agents work in sync to provide a complete picture of your jobsite in real time.

Data-Driven Decisions From Your Dashboard

AI Agents

Safety Coordinator

YOUR 24/7 DIGITAL SAFETY SUPERVISOR
Prevent Accidents. Protect Teams. Reduce Liability.

VigilanteX transforms construction site safety by acting as a tireless AI safety supervisor — detecting risks in real time, sending instant alerts, and giving safety teams the power to intervene before accidents happen.

WHAT IT DETECTS & DELIVERS:

FALL PROTECTION VIOLATIONS

Flags missing PPE and harnesses at height.

HAZARD ZONE INTRUSIONS

Detects entry into restricted or dangerous areas.

UNSAFE BEHAVIORS

Monitors for crowding, ladder misuse, and improper tool handling.

INSTANT ALERTS

Notifies supervisors via SMS or email in real time.

SMART VIDEO PLAYBACK

Indexes critical moments for faster investigations.

Security Officer

**THE DIGITAL GUARD THAT NEVER BLINKS —
POWERED BY IRIS™**
Zero fatigue. 24/7 peace of mind

Designed to replace or reinforce traditional guard services — with AI-powered eyes that never sleep and lightning-fast response.

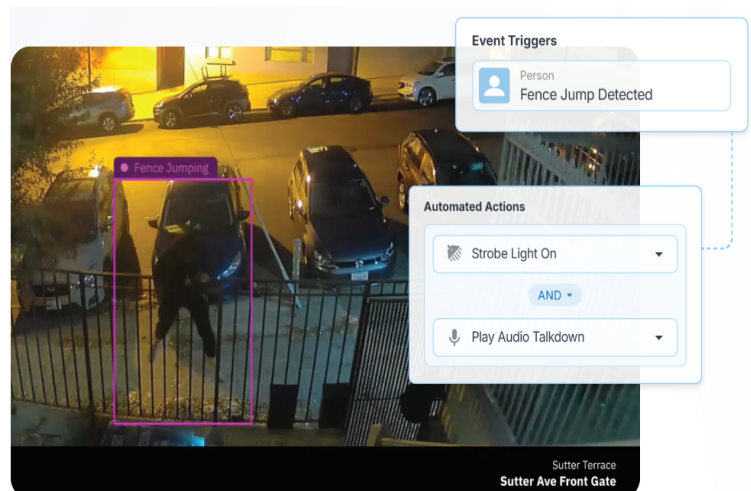

WHAT MAKES IT SMARTER THAN A HUMAN GUARD:

Contextual AI Monitoring

Understands behavior, not just movement.

Autonomous Deterrence

Activates lights, sirens, and voice warnings in real time.

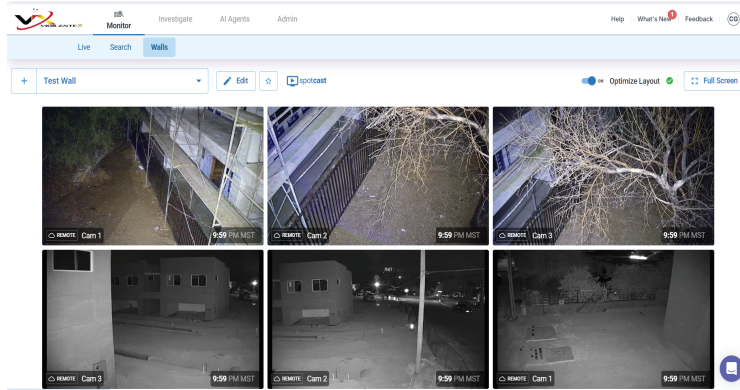

License Plate Recognition

Captures plates in all lighting conditions with high accuracy.

Multi-Site Visibility

Manage all deployments from a centralized cloud dashboard.

Site Damage Mitigator

MINIMIZE SITE DAMAGE

Protect Your Site From Costly Damage & Downtime

The AI-powered agent that detects and responds to threats before they escalate.

HOW WE MINIMIZE SITE DAMAGE:

Proactive Hazard Detection

Identifies risks like unauthorized access, fire hazards, and unsafe activity.

Rapid Response Alerts

Notifies site managers immediately when damage or risk is detected.

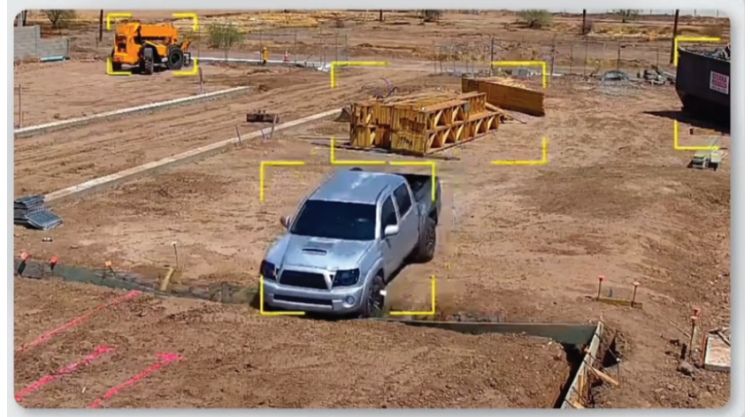

Autonomous Deterrence

Activates sirens, lights, and voice commands to stop damage before it starts.

24/7 Site Monitoring

Maintains surveillance across large or remote sites, even after hours.

Recognize Third Party Damage

Project Manager

REMOTE PROJECT OVERSIGHT, REDEFINED

No Boots On The Ground Required.

VigilanteX transforms remote project management by delivering real-time visibility, intelligent automation, and actionable alerts. Enables managers to oversee operations from anywhere with unmatched efficiency and control.

WHY PROJECT MANAGERS CHOOSE VIGILANTEX:

Remote Oversight Hub

Make faster decisions with AI-generated insights and remote visual confirmation.

Access & Activity Logs

Automatically records license plates, equipment movement, and site entries/exits.

Incident Documentation

Cloud-archived footage for liability protection, compliance, and reporting.

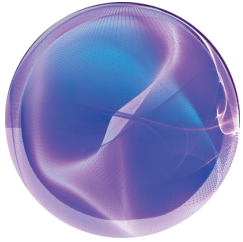

Boosted Efficiency

Cut costs and streamline management without sacrificing awareness or safety.

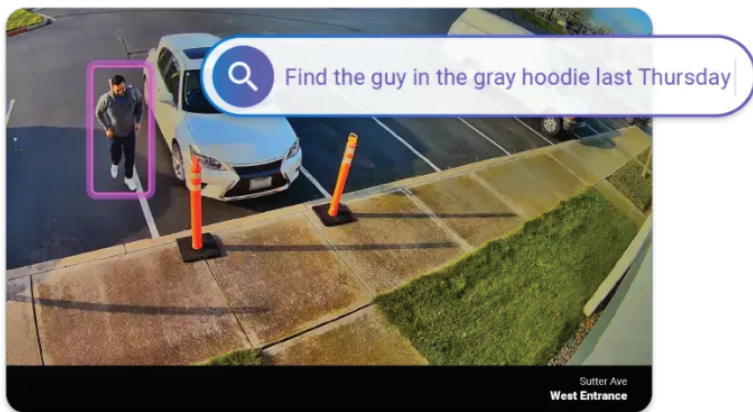

IRIS™

INSIGHTS — ALL THROUGH NATURAL CONVERSATION

Train IRIS to recognize exactly what matters to your business — no coding, machine learning expertise, or AI engineering required. Rapidly adapt to new business needs with quick model creation.

Hi, I'm Iris. How can I help you today?

Your Guide To Understanding And Acting On All Of Your Footage.

Iris transforms how you interact with video. Turn a passive review of your video data into a two-way conversation. See, understand, and respond to anything happening in your facility.

"VigilanteX's camera systems offer exceptional quality and performance. Our team often monitors the progress of our jobsite from various remote locations and the ability to pan, zoom and view high-quality live images has been incredibly useful."

- Verdot Capital

Made to be Mobile

Argos is built for mobility — engineered as a fully towable unit that meets 100% DOT compliance standards.
